RE: New Feature on Federal Developments Section of NCTR's Website

NCTR is offering a new feature this year to help you track federal developments. The Washington Wrap Up, which concentrated mainly on legislative issues, is being expanded into two parts. The first, the Washington Regulatory Wrap Up (WRW), lists the issues before IRS and other federal agencies of interest to NCTR members. The second, the Washington Legislative Wrap Up (WLW), is largely the same as the previous Wrap Up.

Like their predecessor, the two Wrap Ups are in a handy table format and will be updated frequently. We hope you will find this expanded format to be helpful.

Congress just began a new session. As Representatives and Senators begin to introduce legislation of interest to NCTR members, I will post the WLW.

Let me know if you have any feedback about this new format.
